OBJECTIVE

Passionate Java Full Stack Developer trainee with hands-on experience in Java, Spring Boot, MySQL, HTML, CSS, and JavaScript. I enjoy building responsive web applications and solving real-world problems through clean and efficient code. Eager to learn new technologies, grow as a developer, and contribute to innovative software projects.

EDUCATION

Vellore Institute of Technology (VIT-AP) – Andhra Pradesh

Apr 2025

Bachelor of Technology (B.Tech), Computer Science and Engineering

- **GPA:** 8.02/10
- **Coursework:** Programming Languages (Java, Python), Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Web Technologies (HTML, CSS, JavaScript)

Sri Chaitanya Junior College – Andhra Pradesh

Jun 2021

Intermediate (MPC)

- **GPA:** 8.14/10

Narayana High School - Andhra Pradesh

Apr 2019

SSC

- **GPA:** 9.2/10

EXPERIENCE

Codegnan IT Solutions – Vijayawada

Nov 2025 – April 2026

(Java FSD Trainee)

- Completed comprehensive training in Core Java, Object-Oriented Programming (OOP), and the Java Collections Framework.
- Developed backend applications using Spring Boot and designed REST APIs.
- Created responsive frontend interfaces using HTML, CSS, JavaScript and Bootstrap.
- Managed database operations with MySQL and implemented connectivity using JDBC.
- Utilized Git and GitHub for version control, collaboration, and project management.

RELEVANT PROJECT EXPERIENCE

Hospital Management System

Project Source: <https://github.com/sandeep161003/HospitalManagementSystem.git>

Domain: Java Backend

- Developed a REST-based Hospital Management System using Spring Boot, Spring Data JPA, and MySQL for managing Doctors and Patients records.
- Implemented CRUD operations for Doctor and Patient management with efficient database integration.
- Designed One-to-Many entity relationships between Doctors and Patients using Hibernate/JPA.
- Followed layered architecture (Controller → Service → Repository) for clean and maintainable backend development.
- Built and tested REST APIs using Postman.
- Implemented exception handling and response management for reliable API performance.

Sports Management System

Domain: Web Development | Java Backend

Project Source: <https://github.com/sandeep161003/SportsManagementSystem.git>

- Developed a web-based application using Java Servlets, JDBC and MySQL to manage player information efficiently.
 - Implemented CRUD operations to add, update, delete, and retrieve player records.
 - Designed interactive user interfaces using JSP, HTML, and CSS to enhance user experience.
 - Established database connectivity using JDBC for efficient data processing.
 - Created and managed relational database schemas in MySQL for structured data storage.
 - Implemented data validation and error handling mechanisms to ensure data integrity.
-

Vehicle Maintenance Records in Blockchain

Domain: Web Development | Blockchain

- Developed smart contracts using Solidity on the Ethereum blockchain to ensure secure, decentralized, and tamper-proof storage of vehicle maintenance records. Implemented CRUD operations to add, update, delete, and retrieve player records.
- Built a full-stack web application using HTML, CSS, and JavaScript for seamless blockchain interaction.
- Enabled authorized users to add, store, and retrieve vehicle maintenance and service records efficiently.
- Designed features allowing buyers and insurance providers to verify vehicle history, improving transparency and reducing fraud risks.

TECHNICAL PROFICIENCIES

- **Programming Languages:** Java, Python (Basic)
- **Frameworks:** Hibernate, Spring MVC, Spring Boot
- **Front-End Technologies:** HTML, CSS, JavaScript, Bootstrap
- **Backend Technologies:** JDBC, JSP, REST API
- **Database:** MySQL
- **Developer Tools:** VS Code, Android Studio, Eclipse, Postman, Maven, GitHub
- **Cloud Computing:** Basic AWS and Google Cloud Platform (GCP)
- **Soft Skills:** Problem-solving and debugging, Communication and teamwork, Time management and Adaptability, Agile development Methodologies.

CERTIFICATIONS

- Cloud Digital Leader - Google
- Certified Cloud Practitioner - AWS
- Data Science – Indo Euro Synchronization (IES)
